

# The road to the Alltech FEI European Jumping & Dressage Championships 2009

## Day 48

Following their introduction at Royal Windsor Horse Show 2009, organisers are once again installing Woodhouse Barn Stabling at the Championships, offering the best in comfort and protection to horses.

The stable barns offer generous 3m x 4m hardwall quickstables in single rows, which exceed the present FEI recommendation in terms of space. Separated by a wide 4m gangway to improve accessibility and storage, they have a curved Clearspan roof, engineered to reduce wind resistance. The nail-free and splinter-resistant materials mean the barns help improve the stabling conditions for horses and the working conditions for their grooms and riders.

The stables were at hit at Royal Windsor and will no doubt prove their worth again, with around 180 horses due to descend on the event, the stables will house over £100,000,000 worth of horses!

## 48 days and counting!
